

Modular Bracket Shelf for Dell Precision

The Modular Shelf Bracket allows you to securely store and manage your devices into place. You can group the devices by size or operating system, which will help those who are testing for small-scale deployments. We provide PC brackets specifically designed for the Dell Precision 3260, Dell Precision 3280, and Dell Precision 3460. You can fit multiple devices on the Modular 4 post shelf or 2 post shelf.

These brackets feature built-in obrounds that fit flush with the legs of your workstation, ensuring that your device is placed in the correct position. The faceplate of the bracket allows airflow from the front of the rack to directly exhaust to the rear, so you can be confident that your devices will not overheat.

- 101-9075: Mounts 5 Dell Precision 3260 workstations
- 101-9077: Mounts 4 Dell Precision 3280 workstations
- 101-9113: Mounts 4 Dell Precision 3460 workstations
