

Secure Wall Mount D05 for Dell Docking Station

SKU: 104-9105

The Secure Wall Mount for Dell Docking Station combines security and accessibility for your docking station. This wall mount provides a space-saving solution, allowing you to efficiently mount your Dell docking station on the wall or under a desk for a clutter-free workspace. Ideal for work environments such as offices, office hoteling (desk hoteling), schools, libraries, shared spaces, and labs. By using our secure wall mount, this allows you to deploy multiple devices for large-scale installations rather than single installations.

Please note that desk installation requires additional considerations. We do not provide mounting hardware for desk configurations. Customers are responsible for purchasing the desk mounting hardware separately and must determine if the mount is compatible with their desk.

- Completely locks in Dell docking station without obstructing ports
- Sleek, black design for mounting of your Dell docking station
- Barrel locking mechanism and key prevents unwanted access
- Optimize operational space and reduce desk clutter
- Prevent equipment damage and unwanted access
- Mounting hardware for desk configuration not included
