

5U 2Post Cantilever Shelf for 4 Apple Mac Studio

SKU: 107-8580

The RackSolutions 5U 2Post Cantilever Shelf for Apple is designed to store and organize your Mac Studios devices in place. Constructed from 16 GA steel, it can be mounted in most standard 19 inch EIA standard relay racks, telco racks, and 4 post racks. This shelf features slots for up to 4 Mac Studios. To secure each device properly, align it with one of the slots and insert it until it's fully seated and flush with the shelf surface.

Plus, its ventilated, fixed design maintains efficient airflow and heat dissipation. With the cable lances and obrounds, these built-in slots allow you to neatly route your cables along specific paths, preventing tangling and clutter. This makes your overall setup much cleaner and easier to maintain.

The shelf has a total depth of 14.09" (357.8 mm), with 3.08" (78.3 mm) of usable rear space. This extra space is ideal for external SSDs or other additional accessories that enhance the deployment of your Mac Studios. External SSDs offer extra storage for project files and makes it easier for customers to
