

Desktop Rack 2 Post 8U

Application

The OpenFrameRacks Desktop rack is an 8U 2 post 19" av equipment rack. This rack is a cost effective solution to mount shallow depth equipment like routers, switches, patch panels and audio/video equipment. Organize your desktop, small office IT closet, or sound booth. The open frame light weight design meets 19" rack EIA standards to suit rack mountable equipment. Rubber feet at the base of the rack prevent rack sliding while equipment is being installed. Made in the USA with 14 gauge steel. Mounting uprights have slots for zip ties to be used to allow for cable management.

Features

- Mounts shallow depth equipment
- Meets 19" rack EIA standards
- Quick assembly
- Square hole uprights, for universal mounting
- Hardware Included
- 12.66" depth
