

5U HyperShelf for 7 Dell Precision 3280 Compact Workstation

SKU: 115-8995

Designed for data center environments and enterprise deployments, the Dell Precision 3280 HyperShelf allows you to rack mount 7 workstations per 5U of rack space. This rack mount shelf provides a lower installation cost per device that doesn't interfere with the power button or peripheral ports. We built the Precision 3280 HyperShelf to perfectly optimize space and airflow so that your Dell PCs will last and perform. By using this rack shelf, you will be able to decrease deployment times and increase scalability.

Note: To ensure optimal performance, we recommend deploying this product within a standard data center environment at or below 90°F (32°C).

- Rack mount 7 Precision 3280 PCs per 5 rack units of space
 - Built-in cable management for integrated tie points/pathways
 - Isolated intake and exhaust ports
 - Mounting holes at the rear of the shelf are included for an optional 120mm fan to be installed
 - Removable side panels for cable access and cleaning
 - Increases operational efficiency with limited shelf space
 - Extends out of the server rack for in-rack serviceability
- *with proper PC power supply cable length**

***Please note:** You will need to purchase at minimum a 6 ft. power cord for each PCs power supply for proper operation of this unit. You will not be able to fully extend this shelf with Dell's included power cords.
