

Transport Case Rack

Description

The transport racks meet 19" EIA standards and are compatible with all leading OEMs including Dell, HP, IBM, and Cisco. The 24" (610mm) deep transport rack is predominantly used for installations that require a shallow depth such as audio and video equipment. These transport racks are completely shock isolated.

Features

- Square holed, steel/aluminum frame
- Removable front and rear doors
- Shock isolated
- 6U: 300 lbs (136 kgs)
- 8U: 400 lbs (181 kgs)

Part Number	Description
RACK-TRANSPORT-24-6	6U, 24" Deep - Transport Case Rack
RACK-TRANSPORT-24-8	8U, 24" Deep - Transport Case Rack
RACK-TRANSPORT-30-6	6U, 29" Deep - Transport Case Rack
RACK-TRANSPORT-30-8	8U, 29" Deep - Transport Case Rack
RACK-TRANSPORT-CASTERS	Heavy Duty Casters for Transport Case Rack

Design

With over a decade serving the data center market, we've developed product solutions for every major OEM. Better yet, our top notch staff of mechanical and electrical engineers are available to solve your toughest custom data center installation design challenges. If one of our versatile mounting products still doesn't do the trick, we'll design the item you need from scratch.

Plus, we're extremely responsive. Our customers like the fact that we often provide a first article prototype before competitors have even supplied a quote.

Build

In order to meet our exacting production standards and rapid prototyping needs, we opened our own metal fabrication plant in 2005. Our engineers thrive on the fact that they can create a design in the morning and see a prototype from our own plant later the same day. In addition to custom part fabrication, we handle assembly and finishing of complex products with multiple components sourced globally. Our quality control process ensures we deliver only products that have met our own rigorous standards.

Ship

Our 40,000 square foot warehouse, the centerpiece of our distribution capability, is located on our 13 acre campus, along with our corporate office and manufacturing plant in Greenville, Texas, just a few miles NE of Dallas. With complete pick, pack and ship capability, we process hundreds of parcel and freight orders daily.

Our Custom Solutions

If RackSolutions doesn't have a product on hand that a customer needs, we have the unique ability to design custom products at a reasonable cost to satisfy specific challenges.

**Fast 2-3 Week Turnaround,
Custom Design Service,
No Engineering Fees,
Free Prototypes.**
