

Digital Signage Mounts

Wall Mount for Monitor and PC

Front View of Tilted Monitor and PC Mount

FEATURES

- Custom wall mount designs
- Compatible with most flat panel displays
- 75/100 mm VESA monitor hole patterns
- Tilt & fixed monitor options
- All mounting hardware included
- Universal mounting options
- PC & monitor not included

DESCRIPTION

Rack Solutions computer wall mounts are built specifically for each CPU model. Our engineers consider the dimensions, weight, and design of each CPU when designing the product. Rack Solutions wallmounts are ideal for a diverse range of environments where floor space is essential, as they allow computers to be positioned at eye level or higher, while simultaneously being out of the way of foot traffic. Custom designs available for large quantities. These products are available now at www.racksolutions.com.

Well suited for:

hospitals, restaurants, hotels, casinos, doctor's offices, executive offices, retail space

Design

With over a decade serving the data center market, we've developed product solutions for every major OEM. Better yet, our top notch staff of mechanical and electrical engineers are available to solve your toughest custom data center installation design challenges. If one of our versatile mounting products still doesn't do the trick, we'll design the item you need from scratch.

Plus, we're extremely responsive. Our customers like the fact that we often provide a first article prototype before competitors have even supplied a quote.

Build

In order to meet our exacting production standards and rapid prototyping needs, we opened our own metal fabrication plant in 2005. Our engineers thrive on the fact that they can create a design in the morning and see a prototype from our own plant later the same day. In addition to custom part fabrication, we handle assembly and finishing of complex products with multiple components sourced globally. Our quality control process ensures we deliver only products that have met our own rigorous standards.

Stock & Ship

Our 40,000 square foot warehouse, the centerpiece of our distribution capability, is located on our 13 acre campus, along with our corporate office and manufacturing plant in Greenville, Texas, just a few miles NE of Dallas. With complete pick, pack and ship capability, we process hundreds of parcel and freight orders daily.

We design, build & ship

Don't see it? We'll make it!

Rugged racks, branded server bezels, monitor mounting kits, wall mount desktops, server rails, all-in-one PC and monitors, wall mount monitors, ruggedized servers, EMI screens, tall racks, cable management arms, under desk racks, rugged rail kits, tailored shelves, Navy specific mounts, rugged monitor mounts, wall mount printers, rack-to-tower kits, tower-to-rack kits, silkscreens, hundreds of paint colors, decals and badging.

Our Customers

All major computer OEMs, all branches of the military, office IT managers and major data centers.

Custom

Design Service
No engineering fees,
Free prototypes,
Fast 2-3 week
turnaround and high
volume capacity.
